PROFILE

Full Stack Developer with hands-on experience building scalable SaaS applications using Laravel, Yii2, and MySQL. Delivered 10+ production-grade REST APIs, a client-facing restaurant website, and a government complaint management system implementing RBAC/PBAC authorization. Strong foundation in MVC architecture, API design, and cloud deployment (AWS).

EDUCATION

Chandigarh University

Punjab, India

Bachelor of Computer Applications

2023 – 2026

- Ranked among the top 2% of the batch 2023 with 8.3+ CGPA
- Developed 10+ full-stack projects during the program, including web applications using Laravel, Yii2, PHP, HTML, CSS, and JavaScript.

SKILLS

Technical: HTML5, CSS3, JavaScript, Alpine, Flask, Laravel, Yii2, MySQL, WordPress

Tools: Git, GitHub, AWS (S3, Athena, EC2), Linux, Redis, Swagger, XAMPP, Excel, Oracle, Netlify, Railway, Clickup, Trello

CERTIFICATIONS

- Foundation of Project Management from Google -Sep 2024 (<https://coursera.org/verify/LXNZBPKY93WK>)
- Internship Certificate from the SkillCraft Technology Company (<https://skillcrafttech.com/verify?id=SCT/MAR25/5074>)

EXPERIENCE

BentRay Technology

Chakupath, Lalitpur

Associate Software Developer Intern

March 2026 – July 2026

Worked as a Software Developer Intern, developing scalable web applications and APIs using Laravel and Yii2 while following MVC architecture and industry best practices.

- Developed and maintained 10+ RESTful API integrations for web applications and third-party services.
- Designed, implemented, tested, and documented REST APIs using Swagger (OpenAPI) and Postman for efficient collaboration and API validation.
- Developed scalable SaaS applications using Laravel and Yii2 by implementing MVC architecture, modular design, RBAC, PBAC, authentication, and secure authorization mechanisms.
- Implemented background job processing using Laravel Queues for emails, notifications, and scheduled tasks.
- Integrated third-party services including payment gateways, email services, Google Maps, and external APIs.
- Collaborated with senior developers using Git for version control and participated in debugging, code reviews, and feature development.

Lighthouse Café

Medford, USA

Web Developer (Freelancing)

August 2025 – October 2025

Developed the Lighthouse Café – Restaurant Website using Laravel, Blade, Alpine.js, Tailwind CSS, and MySQL for a US-based client, delivering a modern, responsive, and high-performance website.

- Built a fully responsive restaurant website with a clean, modern UI optimized for desktop and mobile devices.
- Developed dynamic pages for menu, gallery, events, contact, and other restaurant content using Laravel and Blade templates.
- Implemented an admin panel to manage menus, galleries, events, testimonials, and website content through CRUD operations.
- Integrated Google Maps, contact forms, image management, email sending and SEO-friendly page structures.
- Utilized Alpine.js to create interactive frontend components without requiring a heavy JavaScript framework.

PROJECTS

E-Gunaso Kendra – Complaint Management System (SaaS)

Jan 2026 – June 2026

- Developed a scalable Government Complaint Management System (E-Gunaso Kendra) for a local government using Laravel, Alpine, Tailwind and MySQL following MVC architecture and clean coding principles.
- Implemented Role-Based Access Control (RBAC) and Permission-Based Access Control (PBAC) to provide secure, module-level authorization and access management along with repository-service design pattern
